Offer SMARTcs 1982 Unimog AGBO G125 27.02.2018

net price EUR: on request
19% VAT
total price EUR: on request

manufacturer: AGBO
model: G125
year of construct.: 1982
condition: ready for operation

location: EXW Germany

Description

dimensions

length 6.500 mm
width 2.300 mm
height: 3.500 mm
weight 8.600 kg

mast

length 6,00 m
max. hook load 50 kN
free working area 4,50 m
mast lifting by 2 hydraulic cylinders

feed drive

max. pull-down force 40 kN
max. pull-back force 50 kN
feed rate: 0 - 1,2 m/sec.

power swivel

max. torque 3.800 Nm
at 0 - 200 rpm

clamping device

max. free passage (opened) 178 mm
7 inch

mud pumps

piston pump type CM 4 1/2" x 5"
flow rate max. 495 l/min
operation pressure 20 bar

centrifugal pump NU 25-10

flow rate max. 2.500 l/min
operation pressure 7 bar

winch

max. line pull 5 kN
cable length 50 m
cable diameter 8 mm

hydraulic supply

hydraulic supply driven by truck motor,
cardan shaft and distribution gear.

hammer mechanism

stroke: 200 - 250 mm

The drilling rig AGBO G125 is especially suited for following drilling operations:

Flush drilling operations up to 100 m depth

All prices are net EUR prices and EXW. This offer is subject to change and valid while stock lasts.

Payment conditions: 100% down payment. Cancellation fee: 10% of net value of the goods.

DDP delivery is possible. Please ask for a specific quotation.

If you send us your **valid European VAT identification number** we can deduct 19% of the German VAT. So you only have to pay the **net price**.
